REMARKS

Claims 43-53, 70, and 89-92 are amended, claims 55-69 and 71-88 are canceled without prejudice or disclaimer, and claims 95-102 are added; as a result, claims 43-54, 70, and 89-102 are now pending in this application.

Applicant expressly reserves the right to pursue the canceled claims in a subsequent divisional application as the examiner has indicated that these claims remain restricted.

Claims 43-53, 70, and 89-92 are amended to clarify the language thereof and not amended in response to any substantive rejection under the Patent Act.

The undersigned thanks the examiner for the various telephone interviews of the past two weeks, the first of which was initiated by the examiner. The language of the claims was discussed but not in view of the documents relied on in the rejections in the prior office actions. The undersigned believes that agreement was reached as to allowance of the currently pending claims.
